

HITECH CONSTRUCTION COMPANY LIMITED

Builders & Civil Engineers

HITECH CODE OF CONDUCT

1. Purpose and Scope

This Code of Conduct outlines the ethical standards and behavioral expectations that apply to all HITECH employees, subcontractors, suppliers, consultants, and third-party partners. It forms part of the company's Environmental and Social Management System (ESMS) and reflects our commitment to legal compliance, responsible business, and sustainable development. Every person operating under or on behalf of HITECH is expected to adhere to these standards across all project sites and corporate activities.

2. Commitment to Ethical Conduct

HITECH is committed to operating with integrity, professionalism, and transparency. Our work is guided by international standards including the IFC Performance Standards, the ILO Core Conventions, the Equator Principles IV, the UN Guiding Principles on Business and Human Rights (UNGPs), and the Voluntary Principles on Security and Human Rights (UNVP). All employees and third parties must act with honesty and fairness in every interaction, avoiding any practice that could harm the company's reputation or the communities we serve.

3. Legal and Regulatory Compliance

All individuals associated with HITECH must comply with national laws, international conventions, and internal policies. This includes regulations concerning labor rights, workplace safety, anti-bribery and corruption, anti-money laundering, environmental protection, and fair competition. Any breach of law or internal policy will be treated seriously and may result in disciplinary or legal action.

4. Health, Safety and Environmental Responsibility

Everyone is responsible for maintaining a safe and healthy work environment. Personnel are expected to use personal protective equipment (PPE) appropriately, follow safety instructions, and participate in safety briefings and training. HITECH promotes a proactive safety culture where all risks are assessed, reported, and mitigated. Environmental compliance is also paramount. Pollution, improper waste disposal, and damage to natural ecosystems are strictly prohibited. All project activities must respect environmental permits and community safety protocols, including speed limits, designated parking zones, and access controls on sites. Transporters must follow HITECH traffic rules, respect host communities, and avoid causing nuisance or harm during deliveries or site entry.

5. Human Rights and Fair Labor Practices

HITECH upholds the dignity and rights of every worker. Forced labor, child labor, and discriminatory practices are strictly prohibited. Workers are entitled to fair wages, safe conditions, reasonable working hours, and rest periods in accordance with Nigerian law and ILO standards. Freedom of association and collective bargaining rights are respected. All forms of workplace harassment, abuse of power, or exploitation will result in immediate disciplinary measures.

6. Gender-Based Violence, Harassment, and Equality

Gender-based violence and harassment (GBVH) are expressly forbidden. All workers must treat others with dignity and refrain from inappropriate conduct, including physical, verbal, or psychological abuse. HITECH is committed to fostering an inclusive environment that is respectful and safe for women and marginalized groups. The company provides mandatory training on GBVH and maintains confidential grievance mechanisms to support affected individuals.

7. Anti-Bribery, Anti-Corruption, and Financial Integrity

HITECH has a zero-tolerance policy for bribery, extortion, fraud, or money laundering. Employees and business partners are forbidden from offering, soliciting, or accepting improper payments, gifts, or favors in any business context. All transactions must be transparent, documented, and conducted through authorized financial channels. Dealing with sanctioned entities or engaging in financial crimes will result in legal consequences and contract termination.

8. Social Responsibility and Community Conduct

HITECH CONSTRUCTION COMPANY LIMITED

Builders & Civil Engineers

HITECH expects all personnel to respect the customs, traditions, and cultural heritage of host communities. Everyone must avoid conflicts with local populations, ensure uninterrupted access to roads and utilities, and act with courtesy when interacting with community members. Grievances raised by stakeholders must be handled through the defined grievance mechanism and with respect for local sensitivities. Special attention must be given to protecting vulnerable populations and promoting inclusive benefits from projects.

9. Confidentiality and Data Protection

Employees and contractors must safeguard confidential information, including personnel data, technical documents, and client records. Misuse or unauthorized disclosure of sensitive information is prohibited. All communication and data systems must be used responsibly and only for legitimate work purposes.

10. Responsibilities of Third Parties

Subcontractors, suppliers, service providers, and consultants must fully comply with this Code of Conduct and the applicable ESMS policies. They are required to sign the appropriate Supplier Code of Conduct or Subcontractor Agreement and cascade these principles to their own workforce. All third parties must implement safety, labor, and environmental practices aligned with HITECH standards and maintain internal grievance systems. Cooperation during audits, site inspections, or investigations is mandatory.

11. Reporting Violations and Whistleblower Protection

Any violation of this Code or related policies must be reported immediately to HITECH's HR or HSE management. Complaints may also be submitted anonymously through grievance boxes or email. Retaliation against anyone who raises a concern in good faith is prohibited. All grievances are treated with confidentiality and followed up according to internal procedures.

12. Enforcement and Sanctions

Failure to comply with this Code will result in appropriate disciplinary measures, including verbal or written warnings, suspension, dismissal, or termination of contract. HITECH reserves the right to refer serious violations to legal authorities. All employees and partners must sign a declaration confirming that they have read, understood, and will comply with this Code.
