

HITECH CONSTRUCTION COMPANY LIMITED

Builders & Civil Engineers

Gender-Based Violence and Sexual Harassment (GBVSH) Policy

HITECH is committed to a zero-tolerance approach to gender-based violence (GBV), sexual exploitation and abuse (SEA), and sexual harassment (SH) in the workplace and project areas. This policy applies to all employees, contractors, suppliers, and stakeholders, and aligns with the IFC Performance Standards, **World Bank Good Practice Note on GBV**, **EBRD GBVH Guidance Note**, and the UN Guiding Principles on Business and Human Rights.

Definitions

- **GBV:** Harmful acts based on gender, including physical, psychological, sexual, or economic abuse.
- **Sexual Harassment:** Unwelcome sexual advances, requests for sexual favors, or conduct that creates an intimidating or offensive work environment.

Prevention and Awareness

- All staff, contractors, and workers receive mandatory induction and regular training on GBVSH, including codes of conduct and behavioral expectations.
- HITECH promotes a respectful workplace culture and displays awareness materials on rights and reporting in appropriate languages.

Monitoring and Reporting

- HITECH conducts **anonymous GBVSH surveys** among workers to identify risks, track trends, and improve prevention and response.
- Confidential, accessible, and anonymous reporting channels are available.
- All reports are taken seriously, investigated impartially, and handled confidentially.

Survivor Support and Response

- Victims/survivors are supported through referrals to appropriate medical, psychosocial, and legal services.
- Perpetrators face disciplinary action, including dismissal or contract termination.

Protection from Retaliation

No individual will face retaliation for reporting GBV/SH in good faith or participating in an investigation.

Managers are accountable for enforcing this policy. A designated GBVSH focal point ensures implementation, training, monitoring, and support.

HITECH is committed to maintaining a safe, inclusive, and respectful workplace. All forms of GBV/SH are strictly prohibited, and action will be taken to prevent and respond effectively in line with international good practice.
