

HITECH CONSTRUCTION COMPANY LIMITED

Builders & Civil Engineers

HIV AND AIDS POLICY

The HITECH Workplace HIV and AIDS Policy aims to promote a supportive and non-discriminatory work environment for employees affected by HIV and AIDS. The policy focuses on awareness, prevention, and treatment to ensure the well-being and productivity of all employees. This policy applies to all HITECH employees, subcontractors and third parties.

Policy Statement:

HITECH is committed to addressing HIV and AIDS in the workplace through comprehensive awareness programs, support services, and access to medical facilities and treatments. The company promotes non-discrimination and confidentiality for all employees affected by HIV and AIDS.

Awareness and Education

HITECH will provide regular HIV and AIDS awareness programs to educate employees about the nature of the disease, modes of transmission, prevention methods, and available support services.

Prevention

Provide free condoms to promote safe sexual practices and reduce the risk of HIV transmission. Offer free, confidential HIV testing for employees at regular intervals, encouraging early detection and treatment.

Medical Facilities and Treatment:

HITECH ensures employees have access to the nearest medical facilities and hospitals that provide comprehensive HIV and AIDS treatment and care. Employees will be informed about available medical treatments, including antiretroviral therapy (ART), and the support services offered at these facilities.

Confidentiality

Maintain strict confidentiality regarding the HIV status of employees, ensuring their privacy and dignity are respected.

Non-Discrimination

Ensure that employees with HIV and AIDS have equal opportunities in recruitment, employment, and career development. Prohibit any form of discrimination, harassment, or stigmatization against employees based on their HIV status.

Employee Rights and Responsibilities:

Ensure that any HIV testing conducted is voluntary and performed with the informed consent of the employee. Employees are responsible for taking preventive measures to protect themselves and others from HIV transmission. Encourage employees to report any incidents of discrimination or harassment related to HIV and AIDS, ensuring swift and fair resolution.
