

HITECH CONSTRUCTION COMPANY LIMITED

Builders & Civil Engineers

ENVIRONMENTAL & SOCIAL POLICY

Commitment to Environmental Stewardship

HITECH is committed to protecting and preserving the environment throughout the lifecycle of its projects. It The company strives to minimize its environmental footprint and ensure sustainable practices by:

- **Regulatory Compliance:** Adhering to applicable Nigerian environmental and social laws and regulations, together with additional environmental and social requirements expressly applicable to individual projects through contractual, financing or formally adopted project commitments.
- **Resource Efficiency:** HITECH enhances the management and conservation of natural resources. This includes optimizing energy use, reducing waste, and promoting recycling.
- **Waste Management:** HITECH collaborates exclusively with government-certified waste disposal companies operating sustainably. It ensures proper disposal of all waste materials.
- **Emergency Response:** HITECH maintains robust procedures for responsiveness to environmental emergencies to ensure immediate and effective containment and remediation.
- **Environmental Protection:** HITECH safeguards the air, water, soil, flora, and fauna from potential adverse effects of its activities. It implements measures to minimize disturbances and nuisances.
- **Biodiversity Conservation:** HITECH applies the mitigation hierarchy to avoid and minimize impacts on biodiversity and natural habitats and implements restoration or other measures where required by applicable project assessments and commitments.
- **Awareness and Training:** HITECH fosters environmental awareness among its employees through targeted training programs. It ensures that all workers understand their roles within the ESMS.
- **Stakeholder Engagement:** HITECH regularly consults with local and national governmental bodies, regulatory authorities, and environmental experts to enhance its environmental management strategies.

Social Responsibility

HITECH upholds the highest standards of social performance, respecting the culture, traditions, and rights of communities within its projects' areas of influence:

- **Community Engagement:** HITECH engages with project-affected communities and relevant stakeholders through transparent and accessible communication, with particular attention to vulnerable or disadvantaged groups and appropriate channels for feedback and grievances.
- **Social Performance Management:** HITECH respects international labor and human rights conventions. It ensures that operations are conducted with integrity, respecting the laws, values, and beliefs of the host communities.
- **Equality and Opportunities:** HITECH promotes equal employment opportunities and non-discrimination in every aspect of its operations. It strives to provide equitable benefits from its projects to all community members.
- **Corporate Social Responsibility:** HITECH implements programs that provide tangible benefits to local communities. These initiatives aim to enhance living standards and support sustainable community development.
- **Land and Livelihood Impacts:** Where HITECH's activities or assigned project responsibilities involve land access, displacement or livelihood impacts, HITECH will seek to avoid and minimize such impacts and implement requirements applicable to its scope and responsibilities. Where compensation or land-acquisition responsibilities rest with a client or public authority, HITECH will cooperate and escalate identified gaps through the project management system.
- **Community Security:** HITECH assesses and manages security-related risks to workers and communities in accordance with applicable law, the HITECH Human Rights Policy and project-specific requirements.
- **Monitoring and Continuous Improvement:** HITECH conducts periodic audits and environmental assessments to ensure compliance and continuous improvement in its environmental and social practices. It regularly reviews the effectiveness of its community relations programs to enhance its social contributions.

HITECH CONSTRUCTION COMPANY LIMITED

Builders & Civil Engineers

Applicable environmental and social requirements shall be communicated to relevant employees and incorporated, as appropriate, into contractual arrangements, Codes of Conduct, inductions and oversight of contractors, subcontractors and security providers.

Commitment to Excellence

By integrating these E&S policies, HITECH commits to conducting all activities to the highest ethical standards. The company aims to balance economic viability with the environmental and social needs of the communities it serves, ensuring that its projects are sustainable, respectful, and beneficial for all stakeholders. HITECH's commitment is to continually improve its E&S performance, fostering a culture of excellence and responsibility.
